

paceval_CreateMultipleComputations

paceval_InitializeLibrary

pacevalLibrary_CreateMultiple
Computations

```
graph LR; A[paceval_CreateMultipleComputations] --> C[pacevalLibrary_CreateMultiple Computations]; B[paceval_InitializeLibrary] --> C;
```

The diagram illustrates a mapping from two external functions to a single library function. On the left, two white rectangular boxes with black borders contain the text 'paceval_CreateMultipleComputations' (top) and 'paceval_InitializeLibrary' (bottom). On the right, a gray rectangular box with a black border contains the text 'pacevalLibrary_CreateMultiple Computations'. Two blue arrows originate from the right side of the white boxes and point towards the left side of the gray box, indicating that both external functions are implemented by or delegate to the library function.
