

paceval_GetErrorMessage

paceval_InitializeLibrary

pacevalLibrary_GetErrorMessage

```
graph LR; A[paceval_GetErrorMessage] --> C[pacevalLibrary_GetErrorMessage]; B[paceval_InitializeLibrary] --> C;
```

The diagram illustrates a mapping from two application-level functions to a single library-level function. On the left, two white rectangular boxes with black borders contain the text 'paceval_GetErrorMessage' and 'paceval_InitializeLibrary'. On the right, a larger gray rectangular box with a black border contains the text 'pacevalLibrary_GetErrorMessage'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both application functions are implemented by or mapped to the library function.
