

pacevalLibrary\_ExistComputation

```
graph LR; A[pacevalLibrary_ExistComputation] --> B[paceval_lockGlobalVariables]; A --> C[paceval_unlockGlobalVariables];
```

The diagram illustrates a flow from a central node to two target nodes. The central node, labeled 'pacevalLibrary\_ExistComputation', is a gray rectangle with a black border. Two blue arrows originate from its right side, pointing to two white rectangular boxes with black borders. The top box is labeled 'paceval\_lockGlobalVariables' and the bottom box is labeled 'paceval\_unlockGlobalVariables'.
