

paceval_dGetComputationResultExt

paceval_InitializeLibrary

pacevalLibrary_dGetComputation
ResultExt

```
graph LR; A[paceval_dGetComputationResultExt] --> C[pacevalLibrary_dGetComputationResultExt]; B[paceval_InitializeLibrary] --> C;
```

The diagram illustrates a dependency or mapping. On the left, two white rectangular boxes with black borders contain the text 'paceval_dGetComputationResultExt' (top) and 'paceval_InitializeLibrary' (bottom). On the right, a larger gray rectangular box with a black border contains the text 'pacevalLibrary_dGetComputationResultExt'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both functions on the left are associated with or point to the function in the gray box.
