pacevalLibrary_dGetMultiple
ComputationsResultsExt

```
graph LR; A[paceval_dGetMultipleComputationsResultsExt] --> C[pacevalLibrary_dGetMultipleComputationsResultsExt]; B[paceval_InitializeLibrary] --> C;
```

The diagram illustrates a dependency or mapping between three functions. On the left, two white rectangular boxes with black borders contain the function names 'paceval_dGetMultipleComputationsResultsExt' (top) and 'paceval_InitializeLibrary' (bottom). On the right, a gray rectangular box with a black border contains the function name 'pacevalLibrary_dGetMultipleComputationsResultsExt'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both functions on the left are associated with or map to the function on the right.
